

Camping Details for The Summer Community Gathering at Triple Crane Retreat Center

Tenting at Triple Crane Retreat Center (TCRC) will give you close proximity to the events taking place during the weekend. Triple Crane is off Workner rd. In the back of the property, you can still hear the louder cars and trucks. If you are a light sleeper camping on-site may not be the best option for you. Earplugs should drown out the occasional loud car that goes by.

The below campsites are all further away from major roads. These camping locations are anywhere from 7 to 20 minutes from Triple Crane Retreat Center.

The indoor accommodations at TCRC will be used by staff and will not be available for this event.

Closest Campground is Waterloo Greenlake Rustic Campground & Yurt

This campground has one Yurt overlooking Green Lake, tenting spots, and places for RV's/Trailers. Greenlake Campground is approximately 7 minutes from TCRC
